TECHO—BLOC

INSPIRING ARTSCAPES

STEP OUTSIDE THE ORDINARY

Techo-Bloc's founders Charles Ciccarello & Nancy LaRocca

Thirty-five years ago, Nancy and I started Techo-Bloc with a unified vision: to reimagine the potential of outdoor spaces. Since then, we've spent every year building our company, developing innovative products, and redefining what outdoor design can be.

Growing up, we came from two different worlds. My father was a landscaper and from an early age I spent my summers digging, building, and learning the trade from the ground up. Nancy was surrounded by high design and development—her dad a high-end residential developer and her mom a designer. Both of us were raised to appreciate craftsmanship, creativity, and the power of transforming spaces.

But as I worked alongside my dad, I couldn't shake the feeling that the products we had to work with held us back. I wanted to create more impressive, meaningful designs—something that truly transformed spaces. Nancy saw it too, from a different angle: outdoor spaces were full of untapped potential. With the right materials, they could become extensions of the home, adding beauty, functionality, and valuable living space.

Sunday dinner with the Ciccarello family

In 1989, we decided to change that. We envisioned pavement options that didn't just do the job but turned outdoor spaces into something extraordinary.

We drew ideas from everywhere—ancient flooring techniques, architectural trends, even fashion runways. With each product, we aimed higher: unique finishes, inventive shapes, and richer colors. We also designed with the installer in mind, creating solutions that made challenging projects easier to execute.

As Techo-Bloc grew, so did our family. Our three children grew up playing on pallets of pavers, watching ideas come to life, and learning the value of hard work and creative thinking firsthand.

Over the years, they've gone from running around the yard to stepping into the business, bringing a fresh perspective and energy while staying true to the core values they grew up with.

Now, they're an essential part of our team, working alongside a group of passionate professionals to push Techo-Bloc to new heights. Together, they've embraced our legacy of innovation, infusing it with their own ideas and helping to ensure that we continue to inspire homeowners, contractors, and designers to dream bigger.

Today, Techo-Bloc is more than we ever imagined. We've grown from five employees to over 850 and from a small operation to a distribution network with over 900 stores across the U.S. and Canada. With our family, our team, and our community of creatives—we're still reimagining what outdoor spaces can be.

Together, we're transforming ordinary spaces into extraordinary experiences, crafting outdoor environments that reflect the individuality and imagination of those who bring them to life.

BACKYARDS THAT BREAK BOUNDARIES

NEW JERSEY, USA

Backyard trends are shifting towards designs that blend with nature. Low maintenance materials like the Borealis walls and firepit are chosen for their wood-like grain, without the upkeep or risk of warping. The Everest slabs on the pool deck mimic natural stone, providing elegant texture that connects your space to nature.

↑ Everest slab in Greyed Nickel, Westmount paver in Onyx Black and Borealis wall in Hazelnut Brandy

NEW COLONIAL

QUEBEC, CA

Designers are revisiting colonial style, blending its traditional roots with a modern touch thanks to contemporary accents. On this covered porch, Westmount pavers in Chestnut Brown are laid in a timeless herringbone pattern offering a warm earthy pallet. The soft hues are complemented by vintage-style lighting, modernized wicker furniture with textured weaves, and creamy linen fabrics.

NEW PRODUCT ALERT

TERRAZZO OUTDOORS

Our Terrazzo collection reimagines a classic material for modern outdoor spaces, bringing contemporary style to life in backyards. Available across multiple collections, including steps, caps, and slabs, Terrazzo is offered in three versatile colors—Mineral White, Opal Grey, and Meteor Black—that mix and match seamlessly. With a sleek, polished finish and a nod to mid-century nostalgia, this collection elevates your outdoor design with modern vibes and timeless appeal. Crafted from recycled marble, Terrazzo is not only stylish but sustainable, and the Mineral White color option offers a high solar reflectance from the sun, keeping cool underfoot, even on the hottest days. *Available spring 2025.*

NIGHTTIME ENTERTAINMENT

MICHIGAN, USA

Elevate nighttime entertaining with a collection of luxurious features that bring the backyard to life after dark. A sunken fire pit with a bar and TV area offers a cozy lounge for gatherings, while the pool's waterfall shimmers under a starry night ceiling, creating an ambiance that's both mesmerizing and inviting. Para slabs on the patio create a sleek foundation, while dark Mika pavers add a dramatic contrast for an interplay of color and texture. An illuminated floating staircase, made of Raffinato steps, guides guests to a balcony with breathtaking views making this home the go-to spot for unforgettable evenings.

PALM BEACH GLAMOUR

NEW JERSEY, USA

Step into the iconic style of 1960s Palm Beach, where poolside glamour meets timeless sophistication. Inspired by the era's vibrant sherbet pastels and crisp whites, this trend captures the chic outdoor decor of sunny Florida retreats. The Westmount paver in Merlot creates a striking contrast against retro black-and-white umbrellas, setting the scene for a stylish escape. Metal wire-framed chairs adorned with colorful patterned pillows invite you to lounge poolside in true vintage fashion—capturing the essence of a sun-soaked getaway with a modern, playful twist.

MINIMALIST SANCTUARY

QUEBEC, CA

Create a serene, minimalist backyard that embraces simplicity and calm, offering a peaceful escape right at home. The custom, linear fire pit crafted from Graphix wall brings a contemporary edge to a comforting focal point for relaxation. Para patio underfoot provides a smooth, expansive feel that unifies the space thanks to its ultra-smooth finish and large-scale dimensions. The serenity extends to a pool, where organically curved chairs on the sun shelf invite you to bask in the warmth, surrounded by soft greenery. The modern minimalist furniture complements the space, creating a peaceful retreat where tranquility and design coexist.

ELEVATE: SPLIT-LEVEL DESIGN

ONTARIO, CA

Split-level designs offer a sophisticated way to define and enhance outdoor spaces. The sunken fire pit on the lower level creates an intimate gathering spot, while stepping up to the patio with sun chairs provides a perfect area for relaxation and tanning. Raffinato steps and flower beds lead you to a dedicated dining space, each level clearly delineated to offer distinct experiences. Uplighting and Lumi fire bowls further accentuate these zones, setting a captivating mood and adding depth to this beautifully structured outdoor area.

WARM NEUTRALS

MICHIGAN, USA

Creamy tones and subtle color blends are redefining the design landscape, shifting away from strong contrasts and replacing the cold greys of previous years for a more calming palette. As soft browns and soothing beiges gain momentum, we've curated a selection of calm, creamy colorways across multiple collections. Our Caffè Crema and Beige Cream colors embody this evolution towards warmer neutrals, embracing a welcoming aesthetic and an understated elegance that feels fresh and modern.

OUTDOOR WELLNESS

DELAWARE, USA

The trend of outdoor relaxation is evolving into a broader focus on holistic wellness, bringing the comforts and benefits of spa-like experiences right to your backyard. From cold plunges and saunas that help rejuvenate the body, to thoughtfully designed garden beds where you can grow your own fresh produce, wellness is now at the forefront of outdoor living. Creating spaces that nourish both the body and mind, these backyard sanctuaries offer a blend of relaxation, recreation, and restorative activities. As the sun sets, opt for a cozy fire pit or fire place adding warmth and ambiance, creating a space perfect for relaxation and gathering.

INDOOR-OUTDOOR LIVING

This trend embraces the idea of bringing indoor comfort outdoors through thoughtfully designed, permanent structures that offer protection from the elements while expanding the livable square footage of your home. Spaces often double as secondary living areas, complete with cozy seating, elegant dining setups or striking fireplaces, perfect for year-round use. Solariums and greenhouses are especially on-trend, not just for housing lush greenery, but also as inviting spaces to relax or entertain, blending elegance and comfort in an open-air environment.

DESIGNER DRIVEWAYS

Driveways are no longer just a utilitarian feature—they've become a statement piece, setting the tone for the entire home. Gone are the days of basic concrete; today's driveways offer customizable options that cater to every climate and lifestyle. For a sustainable approach, permeable pavers with interchangeable joint fillings like river rock, grass, or clean stone allow homeowners to personalize their look while enhancing drainage. In colder climates, heated driveways take the hassle out of winter maintenance, ensuring a clear, snow-free surface. Creative mosaics or integrated lighting within the pavers add an elegant touch, creating a warm welcome that elevates curb appeal.

THE POWER OF PERMEABLE PAVING

With climate change increasing the frequency of rain and causing additional stress on our environment, we are motivated to find sustainable ways to update outdoor spaces. As water runs off urban surfaces, sediment, road salts, metals, oils, pesticides and other harmful pollutants are picked up and are being fed into our rivers and lakes. Designed to let water pass through the joints and filter it back into the ground, here are the benefits of permeable pavers:

DISCOVER PERMEABLE PRODUCTS

01 CONSERVE GROUNDWATER

Collect and store rainwater to later be used in irrigation systems for nourishing plants, lawns and gardens.

02 LIMIT FLOODING

Direct stormwater runoff back into the ground instead of sewage systems.

03 TEMPERATURE CONTROL

Large structures in urban areas absorb and re-emit the sun's heat, creating what are called heat islands. Permeable pavers help counteract this effect, reducing the overall temperature.

04 LONG-TERM SAVINGS

Some municipalities offer tax credits and subsidies for the implementation of a rainwater management system, permeable pavement included.

05 MAXIMIZE SQUARE FOOTAGE OF PAVED SURFACE

Certain municipalities require that a percentage of your front yard contains horticultural elements. Permeable pavement sometimes qualifies.

06 IMPROVED WATER QUALITY

Filter out contaminants such as heavy metals and harmful pollutants.

07 REDUCE PUDDLES AND ICE BUILD-UP

Permeable pavers promote natural drainage, reducing water and ice build-up on paved surfaces less de-icing salts needed.

08 EYE-CATCHING AND ECO-FRIENDLY

Personalize your outdoor design right down to the joint filling to match the aesthetic of your home.

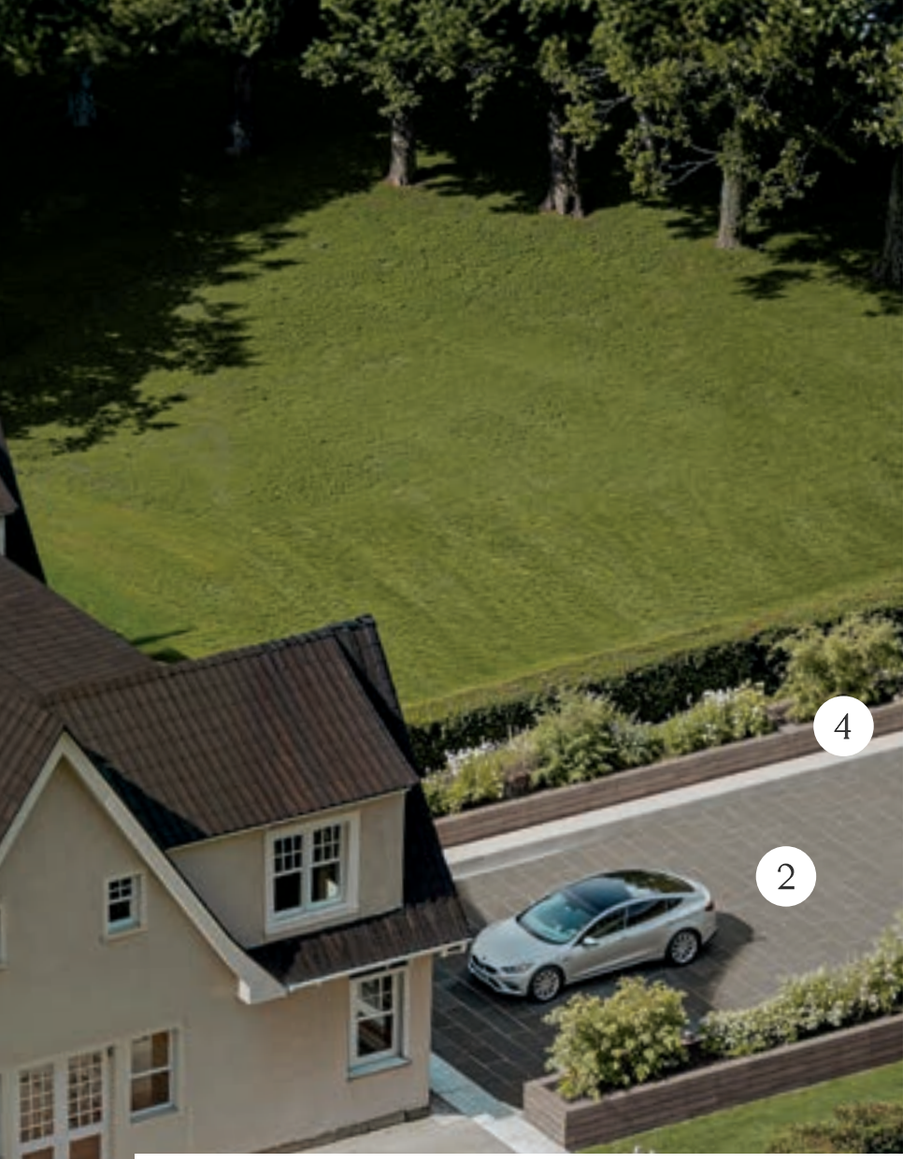
WHERE DOES TECHO-BLOC LIVE AT YOUR HOME?

Discover the landscape products that will help you step outside the ordinary while designing the outdoor space of your dreams! From pavers to slabs and retaining walls to wall caps, we have the products you need to dress up every inch of your exterior.

DISCOVER ALL OUR PRODUCTS



01 SLABS

The appeal of home-based entertaining expands with statement-making slabs. With nature-inspired colors and textures, our large format slabs minimize seams and maximize compliments, perfect for walkways, patios, pool decks, and vehicle-free areas.

02 PAVERS

Our interlocking paving stones, in various shapes, sizes, textures, and colors, pair perfectly with our slab collections. Durable and built to last, they are colorfast, salt-resistant, and some are permeable, ideal for driveways, walkways, and beyond.

03 OUTDOOR FEATURES

Create inviting outdoor spaces that encourage guests to linger with fire pits, fireplaces, pizza ovens, and grill islands, perfect for sparking conversations. Whether your style leans towards clean and contemporary or rustic and earthy, elevate your outdoor entertainment with these captivating focal points.

04 EDGES

Transform your outdoor spaces with eye-catching stone trim, defining walkways, gardens, and driveways while maintaining landscaping order combining attractiveness, functionality, and durability effortlessly.

05 WALLS

Elevate your landscape design with our versatile walls, perfect for enhancing yards, gardens, and patios. Customize your space with varied textures and finishes to create features like bars, benches, kitchens, and fire pits all seamlessly coordinated with our matching product collections.

06 CAPS

Capping off the great outdoors. When upgrading your outdoor living areas, top them off right with the perfect finishing touches. Our color-coordinated caps and copings add the crowning touch to pool edges, stairs, walls, fire pits and more and best of all, they’re as protective as they are attractive.

07 STEPS

Enhance curb appeal effortlessly with our stone steps, creating natural paths and visual interest in yards and gardens. Upgrade your home’s entrance with maintenance-free overlay systems that rejuvenate tired poured concrete, ensuring a welcoming first impression.

*The Terrazzo Collection comes with a factory-applied, water-based "natural look" protectant that enhances the surface and aids in maintenance. However, to maintain its de-icing salt resistant properties, it is essential to re-apply a concrete or natural stone water-based protectant or sealer periodically.

We recommend applying the protectant as soon as you observe water absorption. If water is still repelled, re-application is not yet necessary. Always test the protectant or sealer on a small, hidden area before full application.

For an authentic look, each color option is composed of a variety of darker & lighter tones. Natural ingredients such as granite are present within the recipe to allow for a range in tones, veining & textures from one stone to another. Final color selection should be made with your contractor from product samples or at your local dealer from stocked product. This color chart serves as a guide for color selection across product lines.

X Available ◊ Permeable • Available only in USA

WARRANTY

A STANDARD OF CARE

The care of high quality concrete products is similar to the care of any product left in the environment 365 days and nights per year. Very mild cleaning using detergents, water and product specific chemicals is necessary and similar to cleaning patio furniture, a vehicle's chrome, plastic, or paint, etc. in order to enhance their presence and charm. Protectant of all types (high, middle, and low sheen, pigmented/tinted, penetrating or film forming) are available for additional protection from acid rain, stains and nature's worst. To get the most from your investments take care of them and they'll take care of you.

For any questions on industry-specific cleaners and protectant, see your local hardscape dealer/distributor, contact your contractor, contact us or search online.

It is contrary to Techo-Bloc's SOP (Standard Operating Procedures) to be involved in the care of a mature pavement or retaining structure. Care as mentioned above is the responsibility of the owner for any and all outdoor products.

CMHA disclaimer: "In areas where segmental retaining walls will be repeatedly exposed to snow (such as from snow plowing operations) consider periodically applying sealants or water repelling chemicals (silane or siloxane compounds) to the wall surface."

COLOR

Due to the inherent nature of printed literature and current digital media, Techo-Bloc cannot guarantee specific color matching to printed representations of its color swatches.

Each color option is composed of a variety of darker and lighter tones. Natural ingredients such as granite are present within the recipe to allow for a range in tones, veining and textures from one stone to another. Therefore, colors samples shown are approximate representations of our standard colors and actual product colors may vary.

Final color selection should be made at your local dealer from stocked product. Techo-Bloc always recommends immediately verifying the product and color upon reception. If there are any discrepancies, contact your local dealer before continuing your project. Installation of the product constitutes your acceptance of the product as is.

EFFLORESCENCE

This warranty does not apply to efflorescence. Efflorescence is a natural occurring process in all concrete products which sometimes appears in the form of a white powdery film on the pavement surface. Efflorescence is more perceivable in darker colors such as Onyx Black and Chocolate Brown as there is a higher level of contrast than with other blended colors. It does not, in any way, compromise the functionality or the structural integrity of the product. Although efflorescence cannot be prevented, it will wash off over time or can be cleaned with efflorescence cleaner. Techo-Bloc accepts no responsibility or liability for this condition.

POLYMERIC HAZE

Polymeric haze from the use of polymeric joint sand may appear on your concrete products if the sand was not removed from the surface of the paver properly. This does not, in any way, affect the integrity of the product or your installation. The hazing will weather away naturally with time and rain. It can be removed with a specialized cleaner; you are advised to contact your contractor or the polymeric sand company used for instructions and recommendations. Techo-Bloc accepts no responsibility or liability for this occurrence.

CONSTRUCTION RESIDUE

A by-product of cutting with a saw is residue-filled water or concrete dust. Residue filled water or re-hydrated dust can cling to the surface and leave a concrete stain. It is recommended to wash and remove the water or concrete dust from the surface of the pavers before it dries. Construction residue can also happen through soil disturbance or environmental elements. These contaminants should be removed immediately but do not affect the integrity of the product or your installation. Techo-Bloc accepts no responsibility or liability for these occurrences.

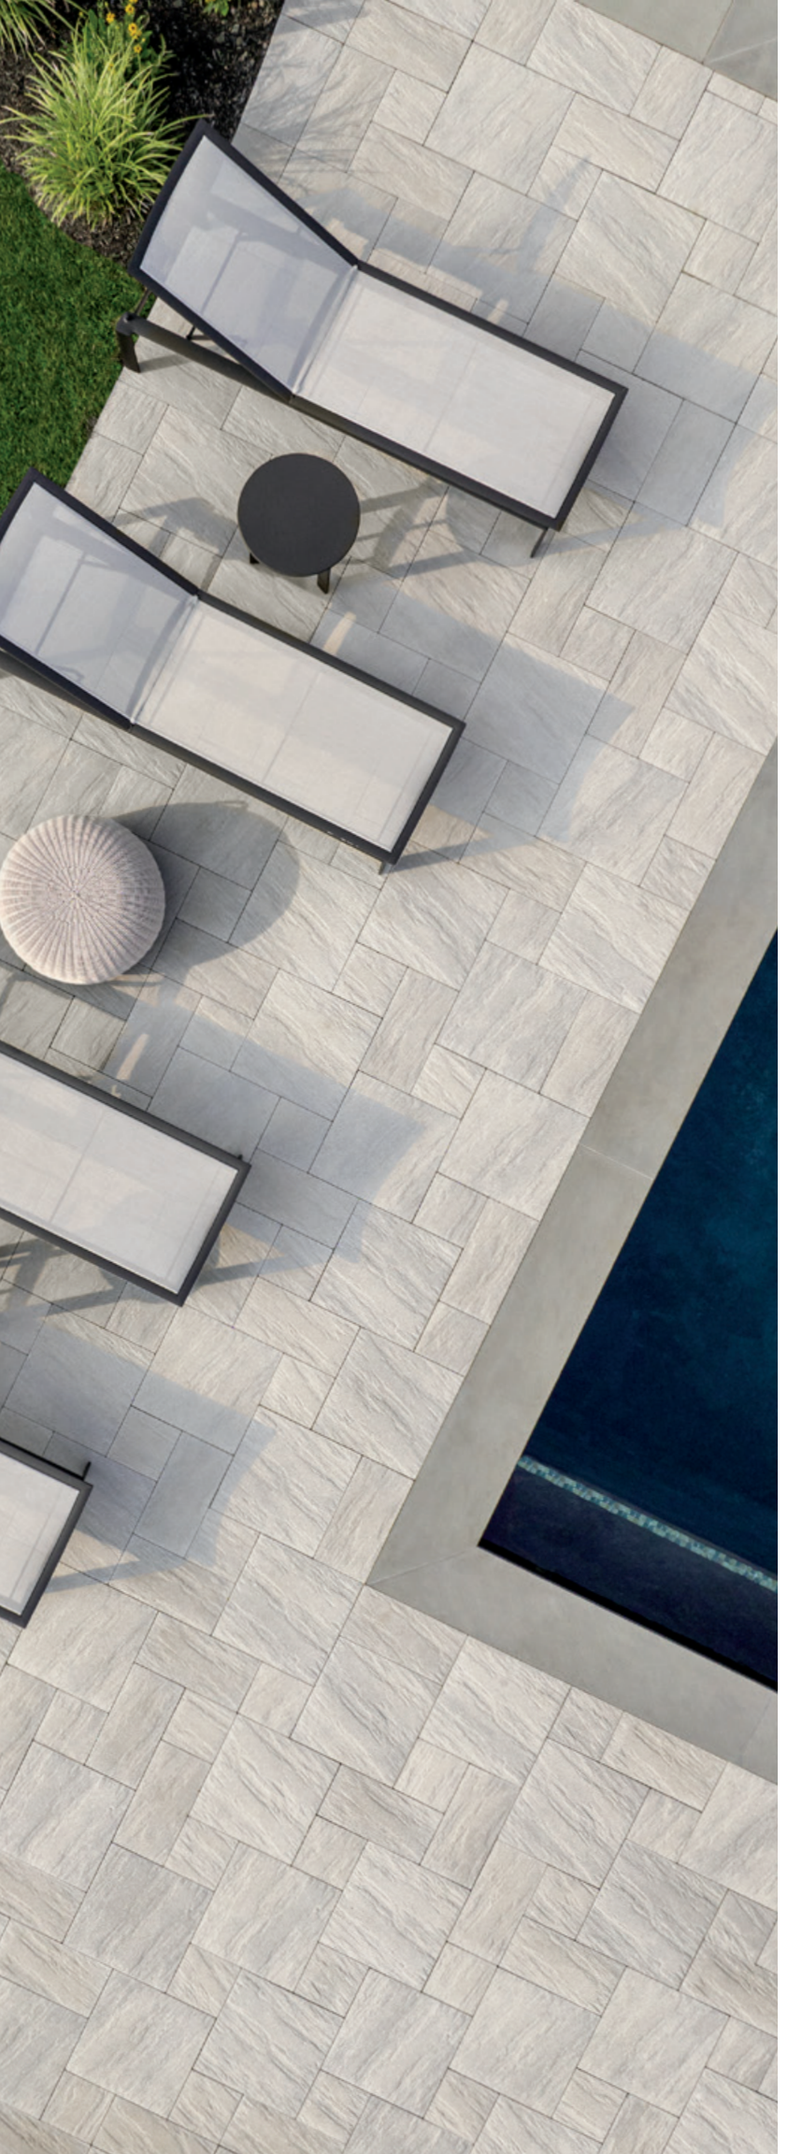
PROPER COLOR DISTRIBUTION AND LAYING TECHNIQUES

Proper installation enhances the overall color of pavement. Units should be randomly picked from at least two pallets when installing. This creates an attractive and subtle blending of color.

COMPACTOR AND SNOW REMOVAL EQUIPMENT

Pavers with an embossed surface (high and low points) are more susceptible to scuff marks from vibratory plate compactors used in most concrete paver installations. Techo-Bloc recommends the use of a urethane mat between the plate and the paver surface during compacting. Contact your equipment supplier for more information about accessories for this purpose. Also, snow removal equipment should have the proper spacing, bumpers, and rubber blade guards to protect the surface of the pavers. Techo-Bloc is not responsible for damage caused by the misuse of compaction or snow removal equipment, which may leave scuff marks, or burns on pavers.

NOTE:
For industry information about efflorescence, polymeric haze or information pertaining to installation specifications, please visit www.icpi.o rg or www.ncma.org.



LIMITED WARRANTY

The warranty applies to concrete landscaping and masonry products (herein referred to as “products”) intended for residential use and manufactured by the Techo-Bloc group.

All Techo-Bloc products comply with applicable standards established by the American Society for Testing and Materials (ASTM) and the Canadian Standards Association (CSA).

Techo-Bloc offers a transferable life-time warranty on its products, commencing on the date of delivery. The warranty covers the structural integrity of the products and any abnormal deterioration of its surfaces that may be caused by the use of rock salt (sodium chloride [NaCl]) for de-icing pavers, slabs or steps, with the exception of Wet Cast collection products, unless otherwise stated.

THE FOLLOWING CONDITIONS OR EVENTS ARE NOT COVERED BY THE WARRANTY:

1. Claims regarding the color, size, or texture of a product already installed. An installed product confirms the acceptance of the product received.
2. Use of rock salt and transferability of warranty on Wet Cast collection products unless otherwise stated.
3. Splitting, chipping or other breakage caused by impact, abrasion or overloading.
4. Damage or loss caused by the movement or settling of the underlying structure or base components upon which the products are set.
5. Damage or loss caused by design or installation not in compliance with local codes, industry standards or the guidelines provided by the Concrete Masonry and Hardscape Association (CMHA) or Techo-Bloc.
6. Damage or loss caused by natural disaster, including but not limited to, earthquakes, floods or other similar events.
7. Acts of negligence or misuse by the owner, installer or any third party.
8. Color matching to printed representations.
9. Efflorescence, polymeric haze or construction-born residue. (See the important information section for terminologies)
10. Damage or loss caused by the operation of compaction or snow removal equipment.
11. Normal wear and tear and normal behavior, such as variation in colors or shades.

In the event of product failure within the scope of this warranty, Techo-Bloc will replace the affected units only, following a site inspection and assessment of the products by Techo-Bloc or its representatives. Techo-Bloc’s responsibility is limited to the cost of the product only and not to the costs related to the installation or replacement of said products. Techo-Bloc will honor this warranty only with a proof of purchase, such as an invoice or delivery slip.
