Product representations shown in this publication are intended to convey the general colour, texture and appearance of the product. Variations may occur in the manufacturing and printing process. Always select from current, physical product samples. Please refer to your local building code for proper installation of all products in this guide.

Introduction

When you choose Oaks you make an investment in longevity, quality, aesthetics, and in us. We take that commitment seriously which motivates us to do more and do better. From state-of-the-art production facilities, to quality control, distribution and customer service, we ensure our products are made to last while exceeding our customers' expectations.

In the following pages, we invite you to get inspired and explore our diverse range of products while feeling confident that your selections are backed by our Strength and Integrity Guarantee.

Warranty information.

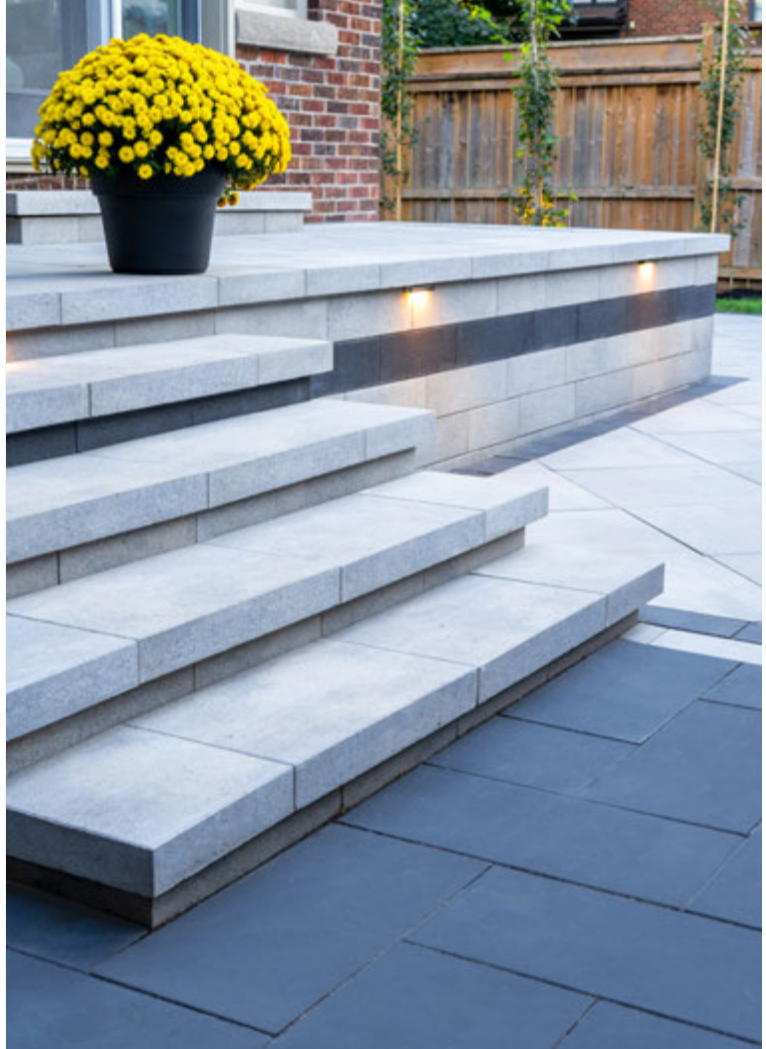

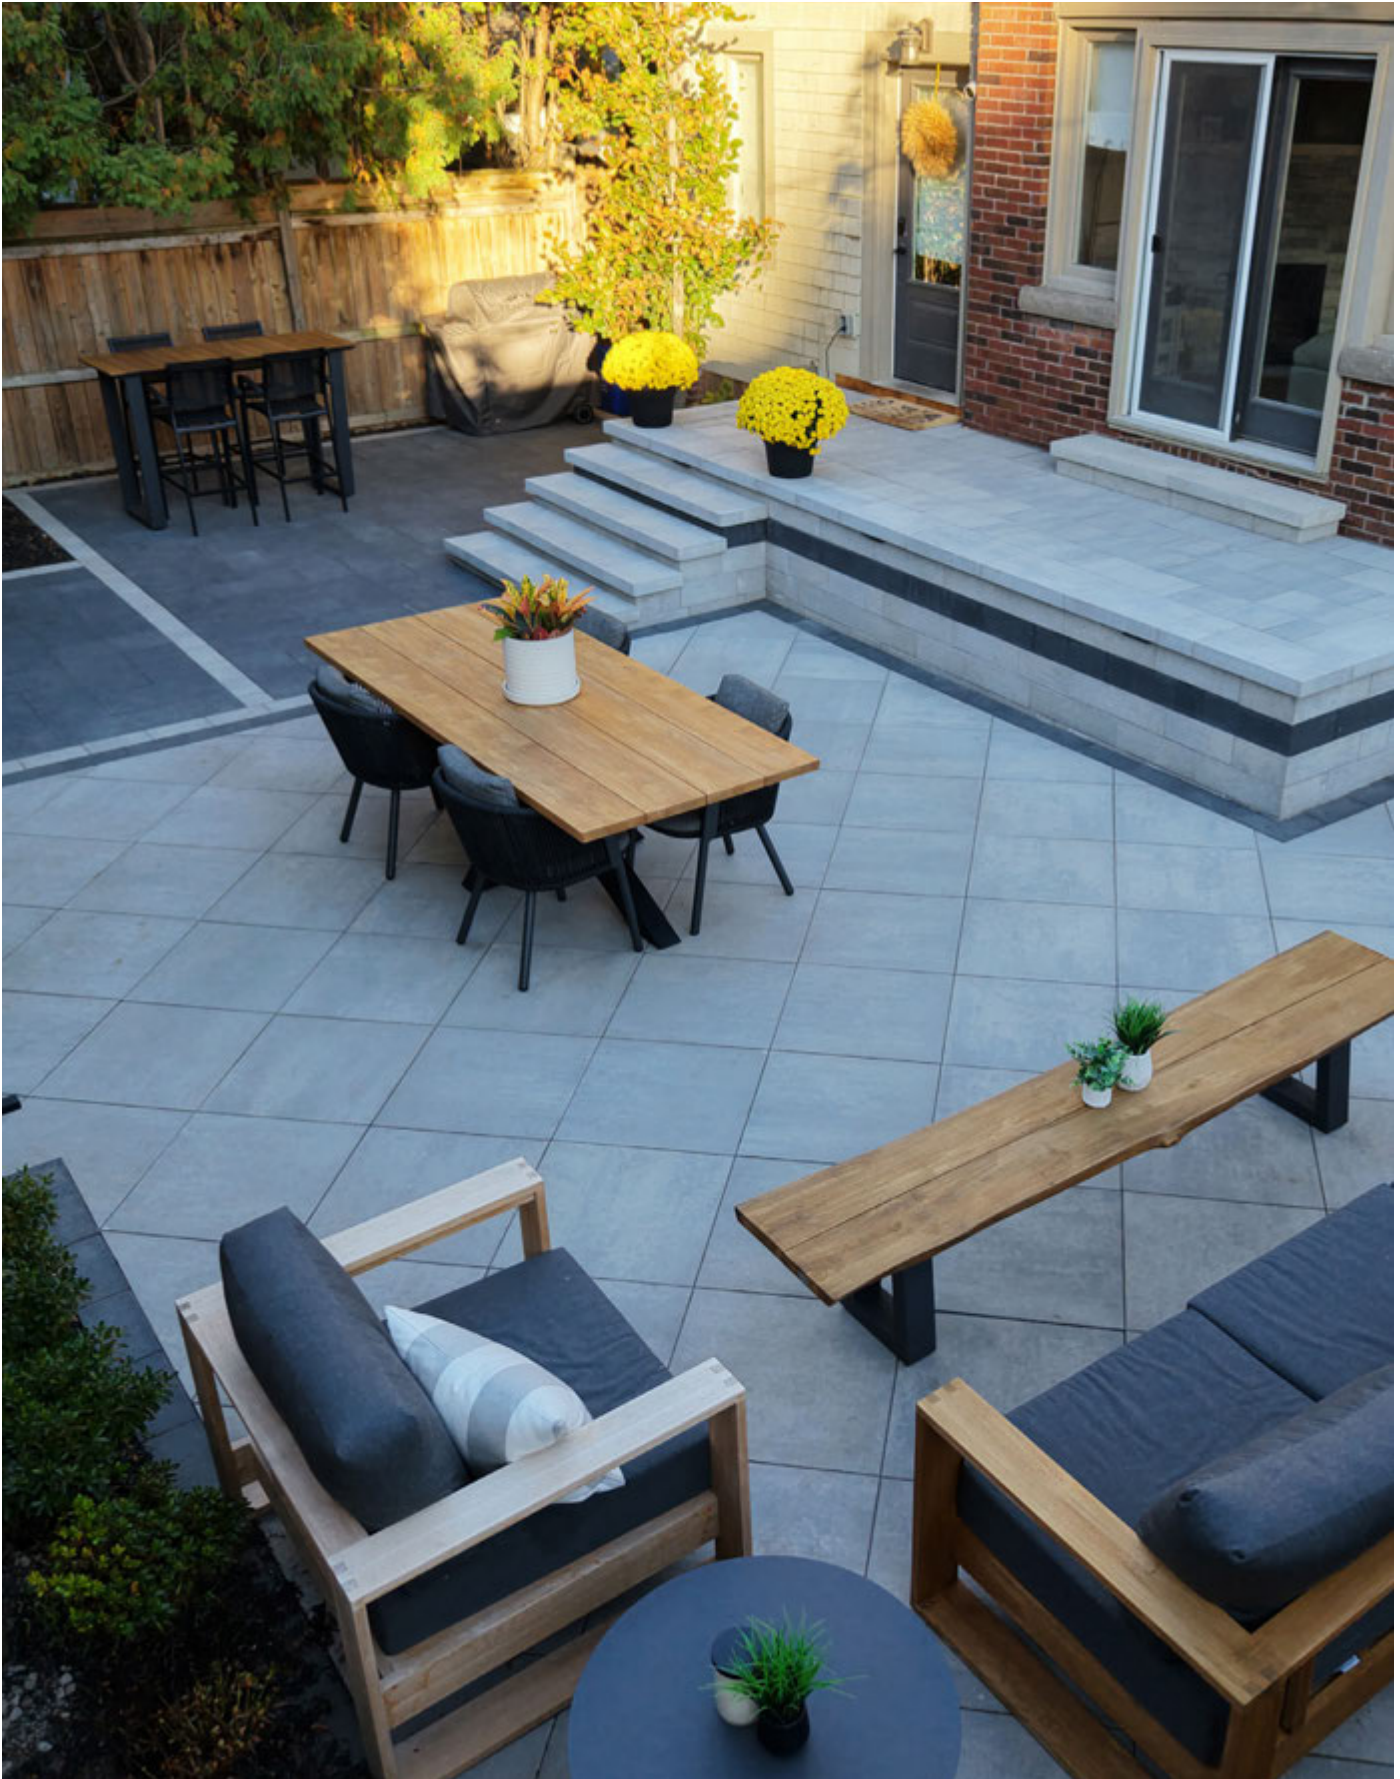

Slabs: Nueva® 60mm, Marble Grey
Firepit: Nueva® 150 Wall, Marble Grey with Nueva® Coping, Marble Grey
Wall/Steps: Nueva® 150 Wall, Marble Grey with Nueva® Coping, Marble Grey

Modern Simplicity

Designed for simplicity and versatility, Molina®'s single-sized pavers and neutral tones create a seamless foundation for modern landscapes. Contemporary herringbone and stack bond patterns, accented with defined borders, visually separate areas while maximizing space in this thoughtfully planned backyard. Nueva® 150 Wall and Nueva® Coping complete the look, echoing Molina®'s modern character and crisp lines.

Slabs: Molina® 60mm, Cloudburst and Twilight
Wall & Steps: Nueva® 150 Wall, Cloudburst with Onyx accent
Coping: Nueva® Coping, Cloudburst

Timeless Design

A cohesive, timeless design carries this property from front to backyard with the use of Yorkville and Nueva®. Yorkville 80mm with EliteFinish™ delivers the durability required for the driveway, while Nueva® 150 Wall and coping provides a clean, architectural frame. In the backyard, Nueva® XL Slabs extend the aesthetic, forming a tile-like patio perfect for outdoor entertaining.

Driveway/Walkway: Yorkville 80mm, Marble Grey
Wall: Nueva® 150 Wall, Cloudburst

Coping: Nueva® Coping, Cloudburst
Patio: Nueva® XL Slab, Marble Grey

Patio/Walkway: Nueva® XL Slab, Marble Grey
Garden Wall: Modan, Marble Grey with Oasis, Onyx coping

Driveway: Molina® 80mm, Twilight with Nueva® 80mm, Cloudburst border

Masterful Modularity

Oaks products are thoughtfully designed to work together, simplifying the planning and design process. The ability to mix and match across product lines while maintaining a fully coordinated look—from curbside to poolside—is what sets Oaks apart. This stunning project highlights that versatility through the use of Molina® and Nueva® pavers and slabs, paired with Modan wall and Oasis coping.

Pillars: Modan, Twilight with Cloudburst accent
Pool Coping: Oasis, Cloudburst

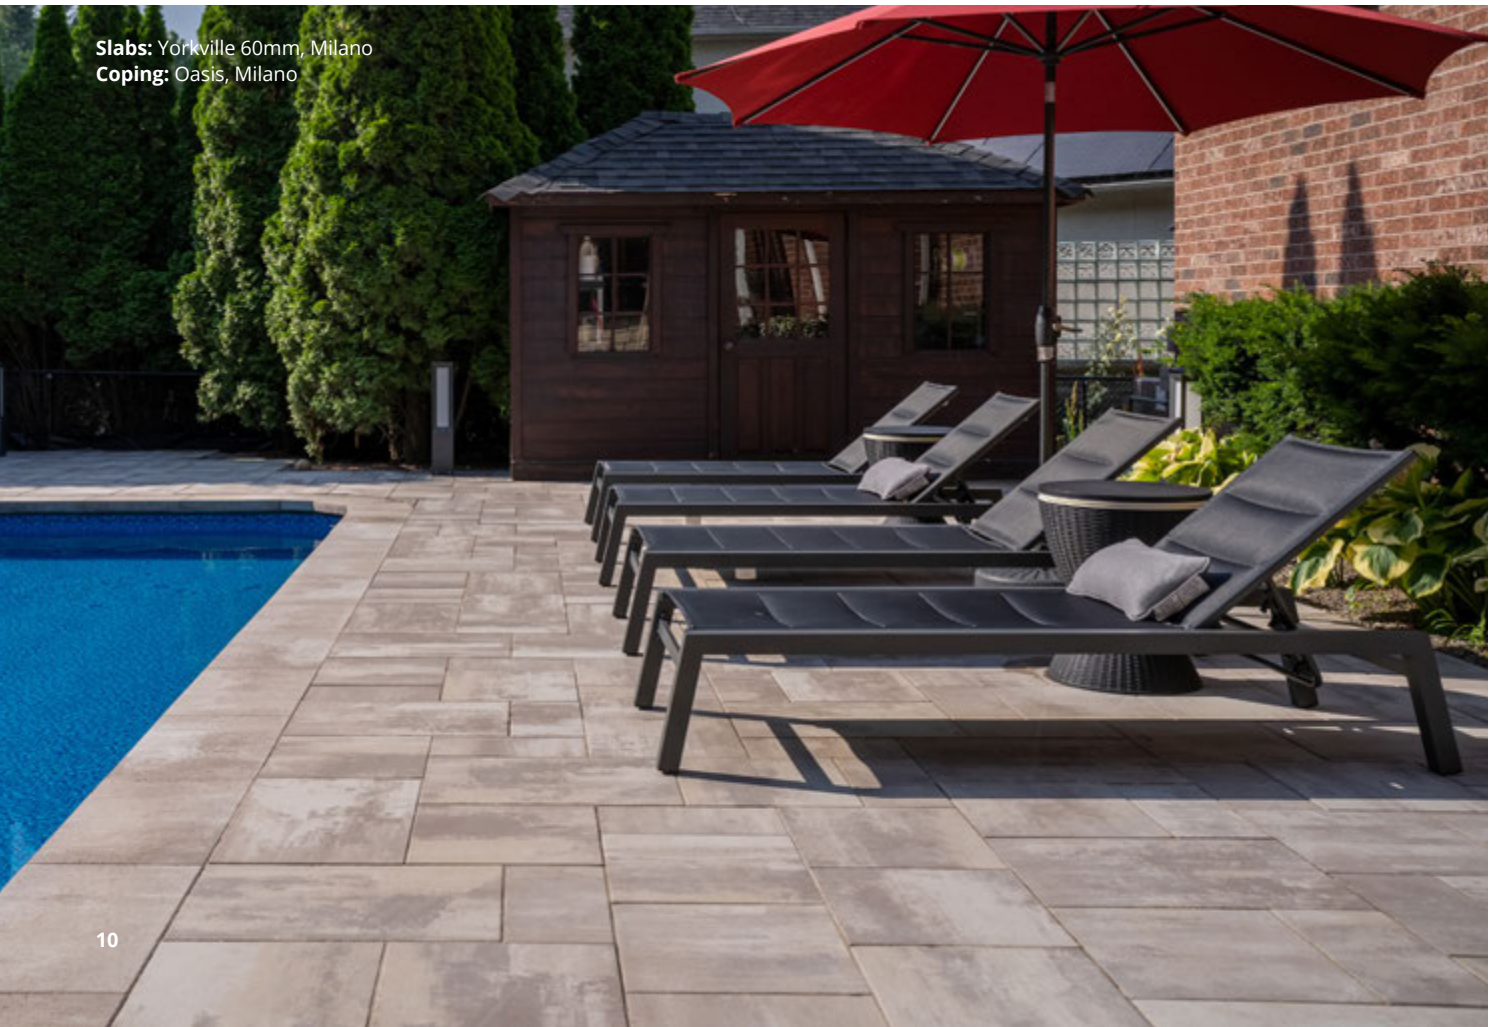

Patio: Nueva® XL Slab, Cloudburst
Pool Coping: Oasis, Cloudburst

SLAB & PAVER ICON LEGEND

Pedestrian

Suitable for pedestrian use only such as walkways or patios.

Vehicular

Suitable for residential vehicular use such as driveways, as well as walkways and patios.

Solar Reflectance

Colours with a higher number indicates greater reflectance and a cooler paver area.

Permeable

Products designed to allow increased drainage.

Technologies, Finishes + Textures

ELITEFINISH™

Enhanced finish and greater structural integrity.

EliteFinish™ is an advanced manufacturing process that delivers richer, more vibrant colour and a smoother, harder wearing surface. The surface of our EliteFinish™ products is a specially engineered layer of finely-ground, durable aggregates combined with rich colour and concentrated cement. The paver foundation uses coarser stone to ensure long term performance in application.

COLORBOLD™

Enhanced colour longevity and stain resistance.

ColorBold™ is an additive treatment employed during manufacturing that provides a greater level of colour longevity and stain resistance. It provides enhanced colour depth, extended colour durability and improved freeze-thaw capability due to decreased moisture absorption.

PERMEABLE

Pavers designed for storm water management.

Oaks permeable pavements are uniquely designed pavers that allow storm water to pass through the surface in to a special pavement base that allows water to be stored or drain into the natural soil to recharge ground water – just like nature intended.

Associated benefits may include:

- Eliminates surface water runoff
- Recharges groundwater through the paver joint and base structure
- Reduces erosion and sediment build-up
- Conform to municipal storm water regulations

Smooth Texture

CONTEMPORARY, MODERN, SLEEK

Smooth pavers with straight edges and clean lines are a popular choice for creating a modern and contemporary landscape. They add both prestige and timeless design to any landscape.

(Nueva® 60mm, Cloudburst pictured)

Embossed Texture

TRADITIONAL, NATURAL, WARM

Embossed pavers provide a more natural stone look and feel. They are ideal for creating spaces that blend with nature or when a warm and stately appearance is desired.

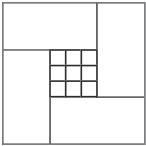

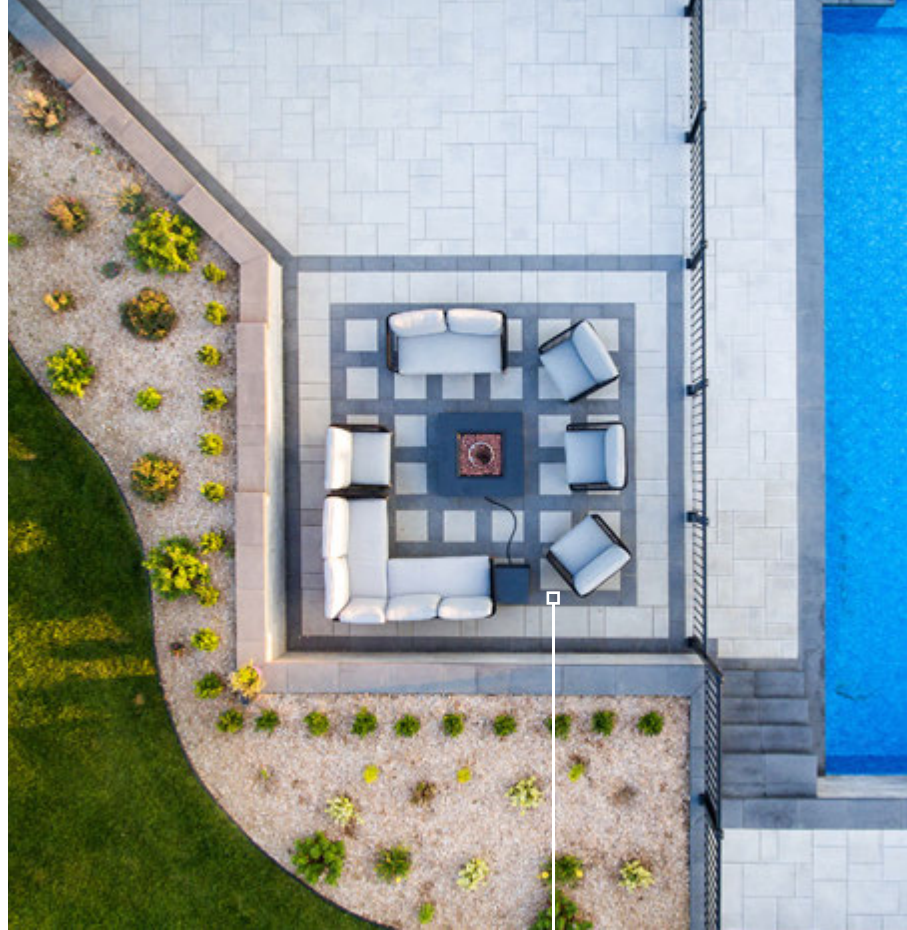

(Rialto 60mm, Champagne pictured)

Accents + Patterns

Single-sized pavers and slabs unlock endless opportunities for accenting and pattern design throughout your landscape. Define distinct spaces with thoughtful laying patterns and borders, or create striking focal points using herringbone, basketweave, or stack bond layouts. The design possibilities are entirely yours.

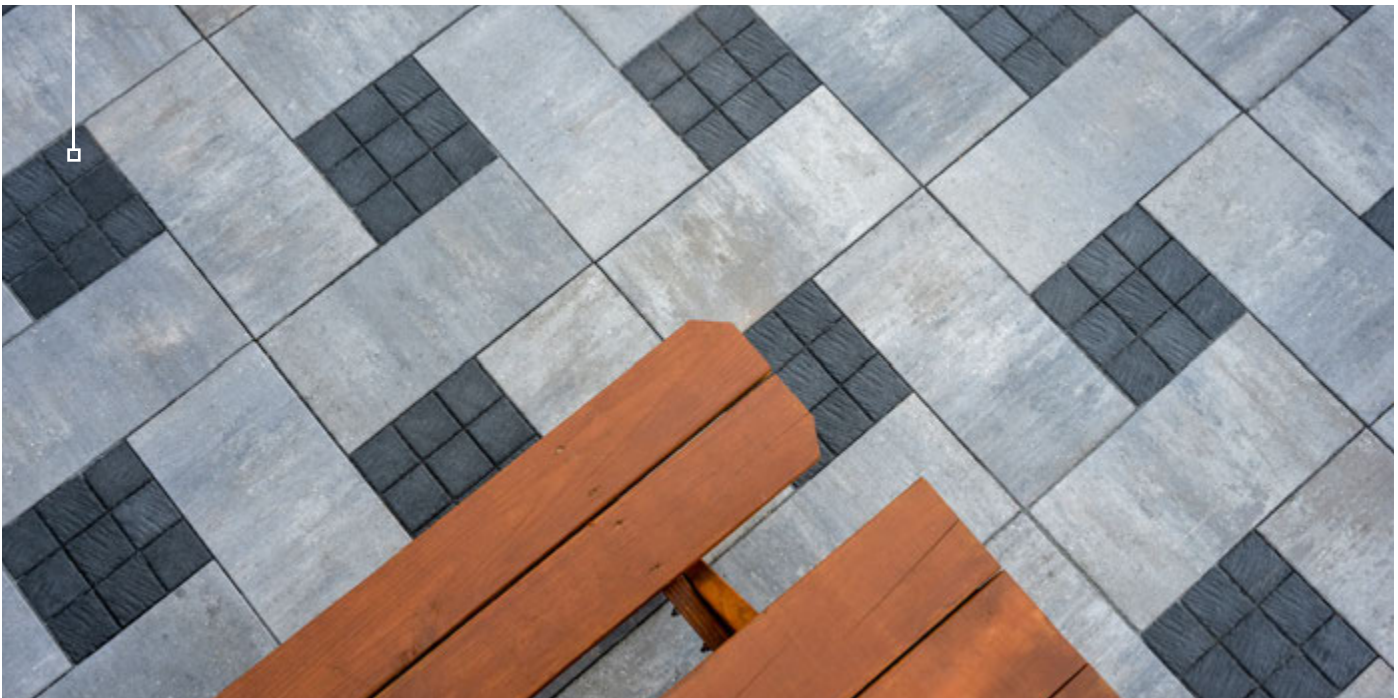

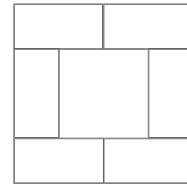

Oaks offers individually packaged, single-sized pavers and slabs within select product lines or as standalone series.

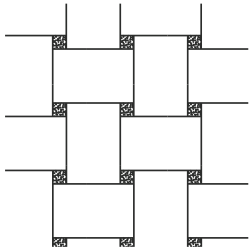

See more pattern ideas are on page 64.

Bonaire, Twilight (4x4 Stone) and Nueva® 60mm, Champagne (12x24 Rectangle), create a stunning geometric pattern in this patio.

Nueva® 60mm, Cloudburst (Random) used creatively with Onyx (8x16 Small Rectangle Stone) borders can create a unique faux rug pattern for a seating area.

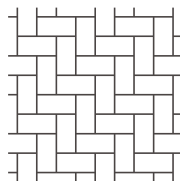

Nueva® XL Slab, Cloudburst in a basketweave laying pattern creates dimension and visual interest in this expansive patio. Shown with a 6"x6" natural stone accent.

Molina® 60mm, Cloudburst (24x24 Stone) patterned in an angled stack bond and 8x16 Stone borders define and separate the dining area in this modern backyard. Molina® 60mm, Twilight (12x24 Stone) in a herringbone pattern creates another well defined area in this landscape.

Strassa, with its cobble-stone look and striking colour pallet, is the perfect companion for accenting and creating borders. This pathway in College Red colour and herringbone pattern adds direction, contrast and elegance to this patio.

Modan Coping 60mm **NEW!**

SIZES

12" Coping Stone
23.62 x 2.36 x 12"
(600 x 60 x 305mm)
Individually Packaged

Compatible + Versatile

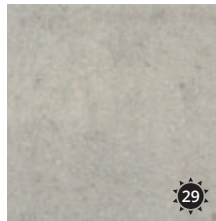

Modan Coping works with more than just Modan Wall. It pairs seamlessly with Gardenia Linear, Laredo, or Nueva® 150 Wall Corner/Column units when used as a garden wall.

Its narrower 12" depth provides the ideal overhang for 8" or 10" garden walls, and can also be used as a shorter step tread.

1ONESAND

The only polymeric sand you need.

Fast, easy setting 1ONESand polymeric sand is a specially formulated, high-performance mix of calibrated sands, polymers, and binding agents designed to fill and firmly bind paver joints up to 4" (100mm) wide. 1ONESand remains stable and just flexible enough, maintaining its durability and flexibility in the most extreme weather conditions.
